DERWENT PIPELINES - DERWENT FOUNDRY

Derwent Pipelines and Foundry ... Providing Solutions for Your Industry

Meeting Customer expectations in the 21st Century. Derwent services the Water and Irrigation Industry, Fire Services and Industrial / Commercial markets.

Water Industry

Derwent offers complete pipeline solutions for all water industry applications and through its manufacturing plant and distribution centre, provides pipeline products and accessories to meet the complete needs of utilities and contractors.

Irrigation Industry

Derwent tops up its extensive range of water products with a range of specially manufactured irrigation fittings to meet industry requirements.

Fire Services

Derwent manufactures and distributes a comprehensive range of products to meet the demands of the vital fire services.

Industrial / Commercial

Derwent Foundry provides – pattern making, moulding, casting, machining and coating facilities in a range of metals to suit individual customer needs.

Who We Are ... Derwent Pipelines and Foundry

Derwent Industries Pty Ltd incorporates Derwent Foundry® and Derwent Pipelines® (formerly Derwent Pipelines Pty Ltd).

The Foundry and Pipeline businesses are situated in Derwent Park, Hobart, Tasmania and has both ISO 9001 Accreditation and Standards Mark to AS/NZS 2280 across a broad range of water fittings, PL No. 1989 where applicable.

Derwent Foundry® has undergone numerous changes and restructuring to allow supply of competitive castings throughout Australia and overseas to various industry segments.

Derwent Pipelines® being the distribution and selling arm of Derwent Industries can supply your needs across a broad range of industry requirements.

Derwent Industries is a 100% Australian owned and operated business, and prides itself on providing its customers with products, service and solutions to meet their requirements.

Derwent Foundry ... Providing Solutions for Your Industry

History

Originally Montpellier Foundry, the property was bought in the mid 1980's by Rex Garner and re-established as Derwent Foundry.

The Foundry was purchased from Mr. Garner (who remained on as General Manager) in 1997 and since then has been upgraded and modernised on a continuing basis.

Derwent Foundry is now a registered trading entity of Derwent Industries Pty Ltd

Manufacturing

- Jobbing castings, (specials, 1 off to 10 off) are a foundry speciality.
- Green sand moulding machine
- Cold box moulding
- Shell core and moulding facility for production castings is available.
- Induction furnace.

The current capacity of the foundry is five tonnes per eight hour shift.

On site metallurgical control is carried out on each metal batch of ferrous metals.

Patternmaking facilities are available on site.

Derwent Industries is a Quality Assured Company to ISO 9001. Licence No. QEC 2004. and holds a 10 year certificate for Quality Management.

Materials

Materials manufactured include:

- Cast Iron – all grades to AS1830/1
- Ductile Iron grades 500/7 and 400/12
- Ni-resist irons for corrosion, heat, and wear resistance
- Aluminium- all sand cast grades
- Brass- all sand cast grades
- Bronze-all sand cast grades

For a further detailed analysis of our capabilities, we welcome your enquiries.
